

Installing PC Matic on Android

Follow the instructions below to add an Android device to a PC Matic account.

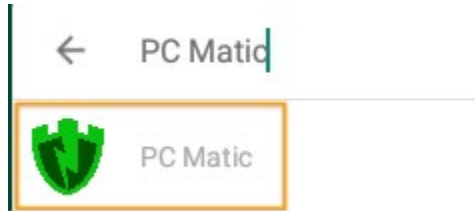

1. On your Android Device, open the Google Play store (screenshot below).

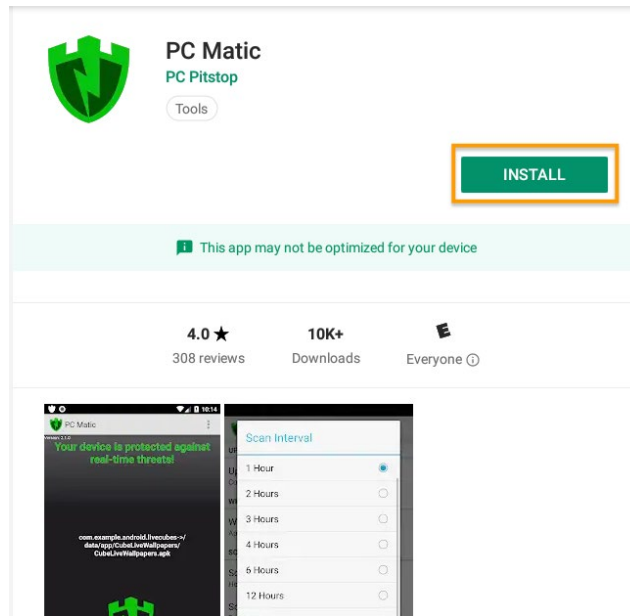

2. In the search bar, type PC Matic and press enter (screenshot below).

3. Tap the PC Matic application in the list (screenshot below).

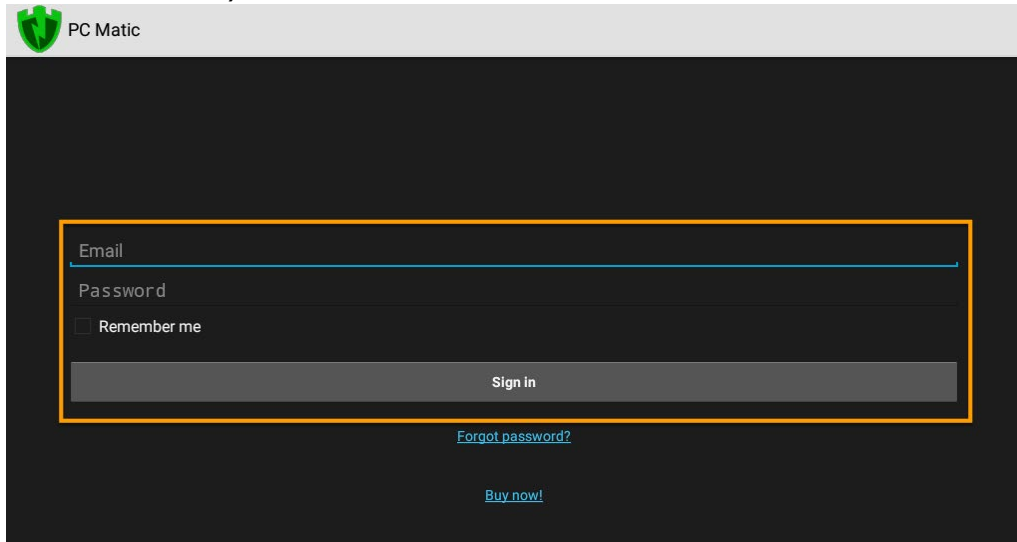

4. On the page for our application, tap Install (screenshot below).

5. Now click the Open button after installation completes (screenshot below).

6. Login with your PC Matic account email address and password (screenshot below).
